

Assessment Preparation Tests (ELA & Math) for 3-4-5 graders

PrepMate

Practice → Performance → Promotion

Helps in improving test performance • Helps in better understanding of the subjects • Increases the confidence level of the students

Dear Principal,

PrepMate offers specially-prepared Assessment Preparation Tests (APT) for schools to prepare 3-4-5 graders for the forthcoming Math & ELA assessment tests. As you'd appreciate, practice is the ultimate key to performance improvement in assessment tests which in turn reflects in the School Report Card.

PrepMate APT Test Pack comes with 3 assessment preparation tests and each test presents about 40 questions with plenty of illustrations and diagrams in multiple choice format – similar to standardized assessment tests. The pack includes 30 copies of each test. The tests are printed on individual sheets and so, the teacher can simply distribute them to students on the day of the preparation test – just like doing an assessment test.

The ELA practice tests have reading passages and questions based on them in addition to language arts questions. The Math tests have word problems with diagrams, graphs and other illustrations. Answer keys are included in all packs.

PrepMate APT helps you in many ways:

- To conduct 3 well-organized assessment preparation tests for all classes in a grade.
- To review the performances quickly and efficiently and take strategic steps to improve the results.
- To improve the overall performance of the school.

PrepMate APT helps your students in understanding the subjects better, identify areas that need improvement, enhances their confidence levels and helps them do the assessments within the given time.

Yes, PrepMate APTs are very apt for you to ACTUALLY prepare your students for the assessment tests. Hundreds of students benefit from PrepMate tests every year!

PrepMate APTs are available at a very nominal budget for schools and are shipped within 2 business days. We accept payment by school / PTA checks and credit/debit cards. (In some schools, this budget is funded with the help of the PTA.)

As the state/citywide assessment tests are approaching fast, please rush your order now and help your students perform better in assessment tests!

We appreciate your time and look forward to your order.

We have also enclosed a PrepMate Flyer for parents to purchase PrepMate practice tests directly. We would greatly appreciate if you could make this flyer available to parents.

Thank you.

With best regards,

Director, PrepMate
